

LAE 4530: Field Journal Grade Justification

Segment Three: What is the Text?

Rationale: Successful teachers reflect and evaluate their practice on a daily basis. This assessment statement is designed to provide you, a prospective teacher, with an opportunity to reflect on and evaluate your own learning and performance as well as have a voice in your own course assessment. Finally, this document and your synthesis paper will provide you and I a “common ground” from which to discuss your learning.

Note: This grade justification statement may be written in the space below and inserted into your field journal, or you may write directly into your field journal.

Grade Justification: What grade would *you* give to your Reader’s Writer’s Thinker’s Field Journal? Justify your evaluation by explaining the criteria you are using to assess your work and providing examples of how your journal meets these criteria.
